

## Coldest Day

Madness

No I never heard through the grapevine  
How you left long before your time  
But in France on the radio  
I could not understand a word  
But I thought you'd go

We waited all night for the midnight lover's calling  
It was the coldest day of the year and I'm still falling

I didn't sleep a wink but while the radio played  
I was day dreaming of what might have been  
While the cold night air was freezing  
The coldest night the coldest day of the year

What is happening mother father please  
Who will save us from the autumn breeze  
Shivering to April no one wants to speak too soon  
Although we all knew under the pale blue moon  
Under the pale moon under the pale blue moon

What happens then when the sun goes down  
Tell me what's the word Johanaseburg  
When the rent goes up and the lights go down  
On the coldest day outside the coldest town

We waited all night and I'm still falling  
I didn't sleep a wink but while the radio played  
I was day dreaming of what might have been  
While the cold night air was freezing  
The coldest night the coldest day of the year  
The coldest night the coldest day of the year  
The coldest night  
Day
