

# Come Back Billy Pilgrim

Madrugada

She said: "Come back Billy, you have been away so long"  
I go through burned out streets  
And I've been away too long

I go walking with my hands slinging loose  
I go walking in my welcro shoes  
I go walking with the wind snapping at my heels  
How do you think that feels?

You're gonna need someone  
Need someone when my eyes close  
You're gonna need someone  
Need someone when my eyes close

She said: "Come back Billy, come back from wherever you are"  
I ain't got another set of lives for you  
To string on to your guitar  
Well, I've been walking with my hands free  
Skippin' on the sidewalk, see  
I've been walking with the wind snapping at my heels  
How do you think that feels?

You're gonna need someone  
Need someone when my eyes close  
You're gonna need someone  
Need someone when my eyes close

When my eyes close x4

You're gonna need someone x2  
When my eyes close

You're gonna need someone  
Need someone when my eyes close  
You're gonna need someone  
Need someone when my eyes close

When my eyes close x2  
Eyes close
