

Into Heartbeats

Madrugada

Walk this way into heartbeats
And airwaves and tears
Talk this way into heartbeats
And blankets and ears

Any side of you
Any side will do
Any part of you
Anything will do

It's not boiling down to anything at all
I stop trying to make sense of you

Walk this way into heartbeats
And airwaves and years
This is not "making movies"
Moving slowly
Making movie tears

Any side of you
Any side will do
Any part of you
Anything will do

I'm not looking for a sign
I'm not trying to punch a hole in you
I'm not looking for a spot
I'm not trying to make sense of you at all

Any side of you
Any side will do
Any part of you
Anything will do
