

Our Time Won't Live That Long

Madrugada

Don't know when they put me in the ground I don't know if I've
been left alone All that matters that I follow you On my way to
the unknown bound.

It's cold baby but I'm not afraid I feel lost, my life swept aw
ay I feel worried but I promise you It's so tense when your in
the life Only time that you walked away It wasn't, I'm always h
ere and I'm gonna stay Loving you can not be bad My blood is bo
iling and you make me mad I was flying but it was very low You
let you loving coming down And all I thought it was just anothe
r dawn Couldn't be right what I found.

A mountain top is the need of time I'm out of my mind so let's
make this night On my own everything is wrong, Holding on now,
I'm holding on...

You just have to call it out You know your love until your love
is gone And you know that it, that it's that strong.

All the times that you let me down, You just wouldn't let me in
All the times when it all went bad I don't wanna fight with yo
u Don't you know what I'll do I will never ever let you go I wi
ll stay with you till I die.

My blood runs cold, I don't wanna know I'm gonna cry all night
long, I wear your heart until my heart is torn, Then I'll make
up, make up my mind When all is gone just stop below Where we g
o where we just gotta blow Everything that we've got in here Do
n't wanna see you walking down those stairs Oooh...

Cause I need you and you know you need me It's all that love th
at you let down on me Hold me tight and I'll love you right I l
ove you, I feel it, baby, baby mine, Honey our time won't live
that long (2x) You know our time won't live that long (2x).
