

I Believe

Mägo De Oz

I believe in love that never dies
I believe in eyes that never lie
I believe in souls that sells true smiles
I believe in you if you with me

I don't believe in an altar, that can save my faith,
honesty is my way is full of stands of freedom.
I don't pray to the gods to come to my life,
My king is my will, my kingdom is your heart.

there's a place far away where the stars kiss your fees away
and the lies are remember and keeps us together in time, on time,
Where your soul breaths life and the wounds seems loader by
and heaven awake virtually in on time, on time
the souls lies on fire way come he feel.

there's a place far away where the stars kiss your fees away
and the lies are remember and keeps us together in time, on time,
Where your soul breaths life and the wounds seems loader by.
there's a place far away where we'll stay together in time, on time
where our dreams are loan and the lost kisses can be find
and the dreams are remember and keep us together in time, in time

making love to you and try to salve your heart my love
I believe in your race promises wont I believe
my love I believe.
