

Juliette

Maggie Reilly

You and me, we'll go down in history
A love to last in time
You and me, our own special chemistry
The stars have all aligned
When we met, I felt a strange sensation
And I know you felt it too
When we met, the right combination
Made us feel the way we do

In a trance, victims of circumstance
The day your eyes met mine
Like a dream, the magic that's passed between
The likes of you and I

When we met, I felt a strange sensation
And I know you felt it too
When we met, the right combination
Made us feel the way we do

You and me, forever it's got to be
You're always on my mind
