

I see 2020
But I couldn't see the tornado coming
It sat me down when I'm usually running
Got me thinking bout dumb things like money
But hey, I try to stay high
But it took away rogers withers and Prine
But I thank God every day I'm alive
Cause at least I see 2020
See 2020

Just another day gone by
I'm a bird in a cage forbidden to fly
In a world changed overnight
Into a place that I don't recognize
Another storm that we all gotta weather
Does it have to get worse before it gets better
I'm staring down the thought that I may never hold you again
If this is the way it's always gonna be
Then 6 feet is where you can bury me

I see 2020
But I couldn't see the tornado coming
It sat me down when I'm usually running
Got me thinking bout dumb things like money
But hey, I try to stay high
But it took away rogers withers and Prine
But I thank God every day I'm alive
Cause at least I see 2020
See 2020

I'm homesick for a sanctuary
Everything I do is a temporary fix
Time to face it we were all already sick
But I've seen strangers be neighbors
And stars shine greater
Now that I can see

2020
But I couldn't see the tornado coming
It sat me down when I'm usually running
Got me thinking bout dumb things like money
But hey, I try to stay high
But it took away rogers withers and Prine
But I thank God every day I'm alive
Cause at least I see 2020
See 2020

Oh, I'll save the date
It don't matter how much it changes
Oh, how sweet it will taste
When we finally know we've made it

I see 2020
I see 2020
We'll see 2020
