

Are We There Yet

Maggie Rose

Is it like love do you know when you know
Is it like a child change your world when you bring her home
Is it like silence, quiet and patient, don't even know what you
got til it's wasted
I don't know

Lover, we're never satisfied, too busy rushing time
Blink of an eye and it's gone, is that what we want
We got each other, living the sweetest life, when do we realize
That baby it's happening, so will we ever stop asking
Are we there yet
Are we there yet

Is it in a book someone wiser has written down
Did we lose the way to a place they already found
Maybe the beauty is learning how to be right here right now
Baby, I don't know

Lover, we're never satisfied, too busy rushing time
Blink of an eye and it's gone, is that what we want
We got each other, living the sweetest life, when do we realize
That baby it's happening, so will we ever stop asking
Are we there yet
Are we there yet

Oh, let's live in the moment
Oh, stop and smell the roses
I want you to come a little closer
Baby, you're my whole world

Lover, we're never satisfied, too busy rushing time
Blink of an eye and it's gone, is that what we want
We got each other, living the sweetest life, when do we realize
That baby it's happening, so will we ever stop asking
Are we there yet
Are we there yet
Are we there yet
Are we there yet
