## Fall Madly In Love With You

## **Maggie Rose**

I was down at the bar doing my best Electric Slide Then he gave me a smile while doing the Grapevine (That's how it started) Gave him my number and waited a week for the call When he finally did I told that boy straight-up (Aren't we tired of playing these games?)

All I wanna do is skip all the rules and the hoops And fall madly in love with you Step up to the plate so I can see the truth And fall madly in love with you

Got my girls in my ride and we're breakin' 65
When a truck full of boys tries to pass us on the right
(We've all been here before)
They start to whistle, hollerin' out cat-calls
Come on, get a clue, have you learned nothing at all?
You must understand

All I wanna do is skip all the rules and the hoops And fall madly in love with you Step up to the plate so I can see the truth And fall madly in love with you

All I wanna do is skip all the rules and the hoops And fall madly in love with you Step up to the plate so I can see the truth And fall madly in love with you

All I wanna do is skip all the rules and the hoops And fall madly in love with you Step up to the plate so I can see the truth

And fall madly in love with you
