

Heartbreak Radio

Maggie Rose

Hop in my car
And I start the ignition
Just minding my business
Taking a joy ride
Head in a good space
I found my happy place
I didn't even miss you
But the second I turned on my radio

It's another heartbreak coming through my stereo
I can't help but sing a long
Swear I wrote every song
Cause I know every word
Damn it hits me where it hurts
Drive like hell
I can't turn off this heartbreak radio

I turn it off and I turn it back on
Cause it's all I got
When I'm all alone
We used to sing at the top of our lungs
With our hands out the window
They were playing our song
But those days are gone

It's another heartbreak coming through my stereo
I can't help but sing a long
Swear I wrote every song
Cause I know every word
Damn it hits me where it hurts
Drive like hell
I can't turn off this heartbreak radio

I don't know why I even bother listening
Oughta tune it out
Cause the only thing I'd be missing

Is just another heartbreak coming through my stereo
I can't help but sing a long
Swear I wrote every song
Cause I know every word
Damn it hits me where it hurts
Drive like hell
I can't turn off this heartbreak radio

No I can't turn off this heartbreak radio
I can't turn off this heartbreak radio
No I can't turn off this heartbreak radio
Ohhh
