

# Savage Requiem

Magic Kingdom

I've always been a loner, a wild child  
I never cared to play with fire  
I rule my life and follow my heart  
I never feared to stand out of the crowd  
Do you believe you can make me doubt?  
Your foolish brain dictates your closed mind  
It's time to live, and roar like a lion  
Before the cold shadows fall

I dedicate this song, this savage requiem  
To every men on earth  
To live this life with passion  
The end could be so near  
Death strikes when you can't see  
For all my fallen ones  
My requiem for life! Oh oh oh

I always faced my demons, my dark sides  
I always fought till I vanquished my pains  
But some scares stay, forever in my flesh  
They're gone too soon  
None can't change this fate  
My frozen soul is empty and cries  
This crown of thorns  
We will all carry one day  
This melody is my blood and tears  
A prayer for the dead

I dedicate this song, this savage requiem  
To every men on earth  
To live this life with passion  
The end could be so near  
Death strikes when you can't see  
For all my fallen ones  
My requiem for life! Oh oh oh
