

By surprise the fragile fluids  
That were, seem to disappear  
Behind the eye  
In disguise  
Or how it ought to  
Really ought to be  
Like crystal breaking in a spoon  
And it's too late  
A finger bends another glass  
Of fruit

By surprise I finally see  
The problems in their eyes  
Or how it ought to be  
Really ought to be  
Behind my eyes a different  
Set of keys  
A figure A to be  
Are you mean  
Or do you mean goodbye?

Are you clear,  
Do you mean goodbye  
Then they say to you ?  
Say it here  
Say it here

A different time you stayed too soon  
Or played before I even know  
Say it here  
Say it here

A candle shows the lack of what I need  
To see to be confused  
But not to use a better friend  
Than you're his he finds he stayed too soon ?  
Or played before I even knew  
I guess it's just of business now  
I guess

Are you clear  
Do you mean goodbye  
When I say  
Say it here  
Say it here

Different time you stayed too soon  
Or played before I even knew  
Are you clear  
Say it here
