

# Voice Without A Sound

Magnapop

Who are you to me  
No one who can mirror me  
Testing me today  
Cruel and twisted in every way

You can't fuck with me  
Thinking you know and you will never see  
Stealing what you need  
You'll never get it from me

A voice without a sound  
Just a matter of time and you'll be figured out  
I will cut you out  
I will cut you  
I will cut you out

Venting? what you see  
I know you can't hide from me  
You might impress a few  
But you're too smart to know that wouldn't do you good

You can't fuck with me  
Thinking you know and you will never see  
Stealing what you need  
You'll never get it from me

A voice without a sound  
Just a matter of time and you'll be figured out  
I will cut you out  
I will cut you  
'cause I can cut you out

A voice without a sound  
Just a matter of time and you'll be figured out  
I will cut you out  
Yeah I'll cut you out
