

# Breath of Life

Magnum

Here we are again  
Always dream of places  
Near and far  
All those different faces  
I'm going to take it like a breath of life

Here we are again  
We don't make much difference  
Never start  
Pray for our forgiveness  
Then we take it like a breath of life

From the wilderness all of us climb  
Just a blink at the end of all time  
Every day watch the sun on the rise  
Always looking, the moon and the stars in our eyes

From the wilderness all of us climb  
Just a blink at the end of all time  
Every day watch the sun on the rise  
Always looking, the moon and the stars in our eyes

So here we are again  
Like a dream unfolded  
Every star  
Every theme exploded  
Still we take it like a breath of life

From the wilderness all of us climb  
Just a blink at the end of all time  
Every day watch the sun on the rise  
Always looking, the moon and the stars in our eyes

From the wilderness all of us climb  
Just a blink at the end of all time  
Every day watch the sun on the rise  
Always looking, the moon and the stars in our eyes

Keep burning bright, way beyond time  
No shadows light up this long empty night

From the wilderness all of us climb  
Just a blink at the end of all time  
Every day watch the sun on the rise  
Always looking, the moon and the stars in our eyes

From the wilderness all of us climb  
Just a blink at the end of all time  
Every day watch the sun on the rise  
Always looking, the moon and the stars in our eyes
