

# The Serpent Rings

Magnum

You steal what you can carry  
You're not afraid  
It's not the truth - desire you crave  
In your mind  
You don't know how it works  
No satisfaction and it hurts

No refuge from the landscape  
You've lost control  
You watch the emptiness unfold  
Then it came  
To steal your liberty  
Some day they say the blind will see

Can't wear a veil to disguise who you are  
Burning the sun from your  
Serpent rings on every  
Finger, gold and silver

So beware if you follow that creed  
The crowd all sing  
Of flaming horses that run with great speed  
On silent wings  
Don't take it in  
Don't take it in  
Don't take it in  
I know the hangman can't wait to begin

You walked the road forever  
And paid no toll  
You've got confusion in your soul  
Baby girl  
They said you'd go astray  
Pay no attention all the way

When dragon clouds disappear from the sky  
Mercia green stole her  
Iron horse rise into  
Azure and it's over

So beware if you follow that creed  
The crowd all sing  
Of flaming horses that run with great speed  
On silent wings  
Don't take it in  
Don't take it in  
Don't take it in  
I know the hangman can't wait to begin

Don't take it in  
Don't take it in  
Don't take it in  
Wake up tomorrow and know where you've been
