

Roselin's preparing a big party
She's been cooking, for at least 50
Peoples coming, but not to her own house
She's always helping, always helping someone else out

Roselin put a lot of trust in her God
She's thankful for all the things she got
She sleeps on the floor, she says
That's the most comfortable way to get some rest

Roselin's birthdays on the 26th - Aaaa
Don't know what I should do, what I should get - Aaaa
Wish I could be there, wish that I could see
But she's million miles away from me

Roselin, takes care of little Cathleen
She's been abandon by her family
Didn't know that life could be that hard
And she never complains not even to her own God

Roselin's birthdays on the 26th
Don't know what I should do, what I should get
Wish I could be there, wish that I could see
But she's million miles away from me

Roselin's birthdays on the 26th
Don't know what I should do, what I should get
Wish I could be there, wish that I could see
But she is always gonna be
More than million miles away from me

Roselin doesn't know how to be saved
Hasn't got a family, she chose another than they gave
And evening he's gone with his bottles of beer
While she's alone, wish I could be there
