

## Nightmare

## Major Accident

Lurking in your mind, What do you fear ,  
Your imagination, or is it real.  
The darkest shadow, your other side,  
Your alter ego, prey's on your mind.

Hurt from inside, your pain is real,  
Bad dreams in your mind  
your fate is sealed,  
Struggle to break free, against the tide,  
My brains exploding, feelings I hide.

Self confidential, is what you feel,  
No more the nightmare  
you've made the deal.  
A latent dark half, without a care,  
Keeping it dormant,  
the mask you wear.

Your worst nightmare  
will take control of you,  
Your worst nightmare  
will be the death of you,  
Your worst nightmare  
will take control of you,  
Your worst nightmare  
will be the death of you.
