

# All My Love

Major Lazer

Sometimes I think we're the brightest stars  
And I try to believe we'll find a way  
Will life change, will our hearts turn colder?  
(Major Lazer)

All the rhythms in my heart lift me up inside  
We can stay out of the trouble is it worth the blame?  
Is it true that the more you give the more they take?  
All the rhythms in my heart lift me up and say

Only love will make us ache  
Only love is worth the chase  
All my love I know we're waitin' for this  
On the rocks up on the mountain tops

All my love  
All my love  
All my love  
Up on the mountain top

All the rhythms in my heart lift me up and say  
We're just a mess of broken people but we love the game  
I would do anything for us, it's worth the pain  
All the rhythms in my heart lift me up and say

Only love will make us ache  
Only love is worth the chase  
All my love I know we're waitin' for this  
On the rocks up on the mountain tops

All my love  
All my love  
All my love  
Up on the mountain top

All my love  
All my love  
All my love  
Up on the mountain top

You're always on my mind, oh there'll come a day  
Day where we can fly, reach the glory haze  
High up in the sun and a brighter sky, sun and a brighter sky

Only love will make us ache  
Only love is worth the chase  
All my love I know we're waitin' for this  
On the rocks up on the mountain tops

All my love  
All my love  
All my love  
Up on the mountain top
