

Drown With Me

Make Them Suffer

Come drown with me
Play back these moments in our dreams
Rewind and repeat
Rewind and repeat
Sink down with me
Come be swept up in memory
Let your spirit be taken by seas
Let your lungs become wings

Lost in the surge of the waves
Relief still feels fathoms away
Your slumber awaits
For you to come claim

Take my hand, don't be scared
Drown with me if you can (Drown with me)
Like we're sand (like we're sand), like we're stones in the water
Drown with me if you can
(So take my hand and drown with me)

Don't fear the oceans of change
These waters waiting an age
Are so much wiser than words can explain
Don't fear the oceans of change
For they have spoken your name
They have known you from long since before you came
Your bed awaits for you to claim

Take my hand (take my hand), don't be scared (don't be scared of water)
Drown with me if you can (drown with me)
Like we're sand (like we're sand), like we're stones in the water
Drown with me if you can

Drown with me
Let your spirit be taken by seas
Let your lungs become wings
Let your spirit be taken by seas
Let your lungs become wings

Sink down with me
Come be swept up in memory
Let your spirit be taken by seas
So take my hand and

Drown with me
So take my hand and
Drown with me
Rewind and repeat
