

# Fake Your Own Death

## Make Them Suffer

You dug an empty grave  
And engraved your name  
In the halls of rag and bone  
Such a befitting place  
For your bones to lay  
In cardboard catacombs

You won't be missed. Not by your friends  
Not with that bullshit you said  
You won't be missed. You've made your bed  
Go lay down and pray for the best

Have worms feast inside your head  
Just to find that no one cares

Egregious, facetious, deceptive snake  
Dishonest, I'm speechless. You fucking fake  
Fake your own death (You fucking)  
Fake your own death  
Egregious, facetious, deceptive snake  
Dishonest, I'm speechless. You fucking fake  
Fake your own death  
You fucking fake your own death

(Spineless, spineless)  
Fuck

I'm welling up to the brim with disgust  
The book has closed on our broken trust  
I want to watch you self destruct  
I want to watch you self destruct  
Spineless, spineless  
You're a spineless fucking worm

Have worms feast inside your head  
Just to find that no one cares

Egregious, facetious, deceptive snake  
Dishonest, I'm speechless. You fucking fake  
Fake your own death (You fucking)  
Fake your own death  
Egregious, facetious, deceptive snake  
Dishonest, I'm speechless. You fucking fake  
Fake your own death  
Fake your own death

Spineless  
You're a spineless fucking worm  
Spineless  
You're a spineless fucking worm
