

That's Just Life

Make Them Suffer

Heavy lies the crown
A new reign has come
In the wake of a tortured kingdom
Pay respects to the family
Kiss the rings of your fearless leaders
Heavy lies the crown

Heavy lies the crown

This is royal blood

Go
This is royal blood
Fuck

All binds will break
To embrace the winds of change
All binds will break
To embrace the winds of change

That's just life
You fall apart or take the ride
That's just life
A change of heart can change your mind

Heavy lies the crown
A new day has come
To awaken this sleeping kingdom
Pay respects to the family
Take heart in their words of wisdom

All binds will break
To embrace the winds of change
All binds will break
To embrace the winds of change

That's just life
You fall apart or take the ride
That's just life
A change of heart can change your mind

This is royal blood
Go
