

World's Famous

Malcolm McLaren

World's Famous supreme
Team, team it out y'all
World's Famous supreme
Team, team it out y'all

Alright, here bring the horn in
And you know I got to have that
Some people, some people
Some people, some people
Some people listen to history
But some people listen because they want a mystery
Some people listen, then say we're wack
But if they miss the show they get a heart attack
Now look into your system, bite the left
The whole world sees you as a hypocrite
Now the first lord past the vision
If the show doesn't help you, change the station
If you don't want peace, in the world

Lord preach the in an endless swirl
Cause all you wanna do is get the whole world back
You're the one who's wack and we're
World's, world's, world's famous

Check it out I'd like to thank everybody
I'd like to thank all the engineers for making this record
I'd like to thank you for buying this record
But finally, I'd like to thank all the Buffalo girls out there
So until the next time, I say peace to you
And everybody out there coming
For the world's famous supreme team
With Mr. Malcolm McLaren
R-r-r-r-r-round, round, round, yeah, round, yeah
