Feeling Better

Malika Ayane

As far as I can see it's too much Freedom for me That's the way you like it If she's so happy to be It's never enought for me And that's the way I like it

You taste humility without a referee That's the way they like it

No commodities not even a cup of tea That's the way they like it Keep on feeling better love be pleased and stay

really doesn't matter wake me up today

The particles I breathe The remedy I never need That's the way you like it

The scent of modesty The judge that walks in peace That's the way they like it

Keep on feeling better love be pleased and stay

really doesn't matter wake me up today

Not even when I run on pride I'll change and rearrange my kind

Not even when I run on pride I'll change and rearrange my kind
