

For You

Mallory Knox

I'm so lost from who I was
That it stops me showing
All the love inside I feel
That I've been hiding
I shy away and day by day
While I can't help feeling now
That I needed more

I'm sorry but it won't work
These pills they make my head hurt
But I'll try to make a fresh start
For you, you, you
I know it's hard to love me
And it leaves you feeling lonely
But i'll try to make it easy
For you, you, you, you, you

I've had this hole inside of my chest
I've been ignoring
But as time flies the pain inside
Well, it keeps on growing
Like a bird inside of a cage
That's kept from flying around
I needed more

I'm sorry but it won't work
These pills they make my head hurt
But I'll try to make a fresh start
For you, you, you
I know it's hard to love me
And it leaves you feeling lonely
But i'll try to make it easy
For you, you, you, you

(Oh, Oh, Oh, Oh)

Well sometimes it feels like tomorrow
Is paved with yesterdays sorrow
But i'm fine, i'm alright
I break hearts to survive
And as soon as yesterday's leaving
Today's too hard to believe in
But i'm fine, i'm alright
I break hearts to survive
And we're fine, to blind eyes
We break hearts to survive
To survive

I'm sorry but it won't work
These pills they make my head hurt
But I'll try to make a fresh start
For you, you, you
I know it's hard to love me
And it leaves you feeling lonely
But i'll try to make it easy
For you, you, you, you

Well sometimes it feels like tomorrow
Is paved with yesterdays sorrow
But i'm fine, i'm alright
(For you, you, you, you)
And as soon as yesterday's leaving
Today's too hard to believe in
But i'm fine, i'm alright
(For you, you, you, you, you, you)
