

White Rice, Brown Heart

Man Man

I wanna be your your Israeli goggles
Oh Native Indian Shadow Shadow
I wanna pee inside of your mouth
Duck duck duck duck duck man hoof hand
See you cross the street it makes me stutter
I lock tom tom with da broiler
I wanna be your long lost limb
I cry alone I am so lonely
You got me feeling like a hang nail
Go White Face!

I saw you fall into a burning cauldron
I heard you call for help but I'm not coming
I saw me fall into a burning oven
I heard me call for help but you're not coming (not coming!)

You call me ling ling I'll call you panda fist
The sun burn like burn burn eye burn burn
I only mess around with girl's who lisp
La you make me feel like a lustrous seagull
Dust me off I'm a trophy wife
Ah these titties are night time things
Make fuck like dog bark moon make fuck like dog bark moon (woo oo)
You got me feeling like a hard on
Go White Face!

I saw you fall into a burning cauldron
I heard you call for help but I'm not coming
I saw me fall into a burning oven
I heard me call for help but you're not coming (not coming!)

Go White Face
Go White Face
Go White Face
Go White Face
