

## War on creation

## Man Must Die

I see in my dreams  
The end prophecy  
Our world will die  
And we helped kill it  
Now nothing remains within  
Nothing left but fear inside  
Empty are my dreams

Redemption is over now  
All life leaves my body  
Never to realise  
Redemption is over now  
Abstract misery

I see the day when everything  
Will crumbles away  
I fear the day when everything fades out

I've seen things so ugly  
If only you could see  
The anguish born inside me  
Our morbid destiny  
You can't escape the terror  
That lies in store for you  
No one can help you now  
Pure death equality

I see the day when everything  
Will crumbles away  
I fear the day when judgement will  
Reign down  
Our last chance and we fucked it  
We must face death now head on  
Replaced now with nothing  
Just a relic of mass destruction  
Tormented by the visions  
These twisted premonitions  
I see every time that I sleep

Creation is here  
Damnation is here  
Ablation is here
