## MAN WITH A MISSION

AD 2045

The new order seems to come arise  
Say Hi to AI and so long good bye to all the human kind

Well mister don't you be afraid  
We've been through more that they could take  
Come now close I'll give you all a ride  
We're gonna have to take a break anyway

Hi Another dimension  
To the new galaxy

Check it out the brand new monkey clone  
Somebody might be in love you know  
Wise man says the future ain't bright

But that's your pro man I haven't even started bro  
Well mister don't you be afraid  
We've been through more that they could take  
Come now close I'll give you all a ride  
We're gonna have to take a break anyway

Hi Singularity

Hands up and give me what I need  
Hands up and find out what it means  
Bring back the reason why you're here from nowhere  
Hands up I'll give you what you please  
We'll face the singularity  
This is the reason why we're here from nowhere

Age AD 2045

The AI will take the lead and rise  
Yikes they say and choke with fear  
But I won't dig it bro I know what brought me here  
Well honey don't you be afraid  
We've been through more that they could take  
Come now close I'll give you all a ride  
We're gonna have to face it all anyway
