

# Break the Contradictions

## MAN WITH A MISSION

Bring it on the countdown begins to light the new era Woh oh oh oh  
Come along to witness the wind we waited so long Woh oh oh oh

Scattering the heat so deep and so massively  
Can't wait your heart beats so rapidly  
One new page  
The world needs a change  
So give it to them all the poison and the remedy

Here comes the new revolution  
Dare your souls

Whatever you have down below is the key to let it go  
Wanna go high? Wanna go low?  
Break the contradictions  
Konoyō no setsuri ni aragau chikara o  
I don't know why  
Don't wanna know  
Break the contradictions as you go

Let it out ya know what's the thing to light up the fire  
Woh oh oh oh  
Bring it on  
Feel like a king the world is all yours  
Woh oh oh oh

Waiting for more now take this advantage  
Men of war  
Pull through the ravage  
Get in the ring now  
Parallel to nothing  
With you natural instinct rise to the challenge

Here comes the new revolution  
Dare your souls

Whatever you have down below is the key to let it go  
Wanna go high? Wanna go low?  
Break the contradictions  
Habikoru mujun o uchikudaku ishi o  
I don't know why  
Don't wanna know  
Break the contradictions as you go

See the innovation and the birth  
Again we start it over  
Again we start it over  
To bring up the new order  
Again we start it over  
Let us go on further  
Again we start it over

To bring up the new order  
Again we start it over  
Again we start it over

Rise to survive all rebellions

Now let them know  
Let them have it all  
Here comes the new revolution  
Dare your souls

Whatever you have down below is the key to let it go  
Wanna go high? Wanna go low?  
Break the contradictions  
□□□□□□ □□□□ (Konoyo no setsuri ni aragau chikara o)  
I don't know why  
Don't wanna know  
Break the contradictions

Whatever you have down below is the key to let it go  
Wanna go high? Wanna go low?  
Break the contradictions  
No matter where this goes you know  
Don't surrender don't you fold  
Wanna go high? Wanna go low?  
Break the contradictions as you go
