

Out of Control

MAN WITH A MISSION

I'm a mad man with a mission
Like a nightmare double visioned
This is warfare feel the kick drum
We be shining killin' redrum
Lock and loaded pull the trigger
In this movement growin' bigger
Burn the blueprint kill the silence
With a new spin this is violence

Yeah we are out of control now
I'll never act a role like you
Bring on the noise and shout out loud
We are out of control now
Ready for the game we're all going crazy
Come on just try to amaze me
No doubt we're out of control
But it feels right now free from the soul

Lock and loaded pull the trigger
In this movement yeah growing bigger
Burn the blueprint go kill the silence
With a new spin I'll show you what's violence
Yeah bring on the noise and shout out loud
We are out of control

We are the ones that will stand up and fight
We are the fire the one shining light
Don't try and stop us don't ever let go
We are the ones fallen out of control
Yeah we're loaded now in line
With our fury so divine
Watch out cause here comes the sign

Take em all down and feel yourself roam
Shout it out loud the words of your own
Not anymore with their cheapest disguise
Had enough with all of that "likewise"
Yeah bring on the noise and shout out loud
We are out of control now

Stop the bleeding kill the headlights
Keep on speeding to the gun fight
Let the bass go cant be broken
Keep your head low stop the choking
Slice the track up clean incision
Never back up no division
Burn the blueprint kill the silence
We are out of control yeah

Yeah bring on the noise and shout out loud
We are out of control
We are the ones that will stand up and fight
We are the fire the one shining light
Don't try and stop us dont ever let go
We are the ones fallen out of control

(Nah nah nah)

We are the ones that will stand up and fight
We are the fire the one shining light
Don't try and stop us don't ever let go
We are the ones fallen out of control
We are the ones that will stand up and fight
We are the fire the one shining light
Don't try and stop us don't ever let go
We are the ones fallen we are the ones fallen out of control
