

# Coming Back

Manafest

Shipwrecked in Toronto  
Left my heart in the waves of the west coast  
Stopped dreaming cause I wake up every time  
Mama's taking photos  
I got frame after frame of the high notes  
Flipped through all the times I felt alive

I'm not counting the days  
I'm not loosing my faith

This is my pain, this is my cry  
This is my hope when I need a sign  
Cause I'm never too far  
Never too far to comeback  
I've been so high, been so low  
But no matter how long the road  
I'm never too far  
Never too far to comeback  
So I'm coming back  
I'm coming back

Hit pause and my world froze  
Watch it all play back in a slo-mo  
Keep trying, but I just can't press rewind  
Forgetting all the regrets, reset  
Found my peace of mind  
It's good to be back in paradise  
Cause I'm

I'm not counting the days  
I'm not loosing my faith

This is my pain, this is my cry  
This is my hope when I need a sign  
Cause I'm never too far  
Never too far to comeback  
I've been so high, been so low  
But no matter how long the road  
I'm never too far  
Never too far to comeback  
So I'm coming back  
I'm coming back  
You know I'm coming back  
Yeah, I'm coming back  
You know I'm coming back

I'm not counting the days (I'm not counting the days)  
I'm not loosing my faith (I'm not loosing my faith)  
[x2]

This is my pain, this is my cry  
This is my hope when I need a sign  
Cause I'm never too far  
Never too far to comeback  
I've been so high, I've been so low  
But I'm never too far  
Never too far to comeback (so I'm coming back)

This is my pain, this is my cry  
This is my hope when I need a sign  
Cause I'm never too far  
Never too far to comeback  
I've been so high, been so low  
But no matter how long the road  
I'm never too far  
Never too far to comeback  
So I'm coming back
