

# All That I Really Wanted

Manchester Orchestra

I've been left out a while  
I sold the family plot for time  
Sold the only thing I liked  
So I could taste it

You've been drinking all night  
We both know when you're drunk  
The future rewinds  
It happens every fucking time  
But you erase it

All that I really wanted to do was to leave it all  
All that I really wanted to do was to leave it all  
For you

These days that you finally find  
That pure restitution is not on your side  
There's never been a place to hide  
You have to face it

Nobody thinks you're actually right  
It feels like a battle, it's more like a fight  
You always bark, you never bite  
I don't believe it

All that I really wanted to do was to leave it all  
All that I really wanted to do was to leave it all  
To you

Let me make up my mind (3x)  
So I can change you

All that I really wanted to do was to leave it all  
All that I really wanted to do was to leave it all  
For you
