Deep Love

Now I can trust you now As I feel at ease How lost in you should I be Now I can see you clear As the day begins How lost in this should we be

Share and say you'll bring To me deep love You can't say that it's too soon to say how you feel Share and say you'll bring To me deep love Just don't say that it's too soon to say how you feel

Now as I touch you here As the day begins How lost in this should I be

Share and say you'll bring To me deep love You can't say that it's too soon to say how you feel Share and say you'll bring To me deep love Just don't say that it's too soon to say how you feel

Share and say you'll bring To me deep love You can't say that it's too soon to say how you feel Share and say you'll bring To me deep love Just don't say that it's too soon to say how you feel
