I pulled a loose thread
I gathered you in
Discovered I could
A pivot for your sun

You invited me in
As if it's nothing
We tread on old ground
As if it's nothing now

It's like I hardly see the sky some days It's like you hardly said a word It's like I hardly see the sky some days And I'd do better if I turned my head Knowing you did

I wouldn't be here
If you could have said no
I wouldn't have come here
If ever I had known

It's like I hardly see the sky some days It's like you hardly said a word It's like I hardly see the sky some days And I'd do better if I turned my head Knowing you did

Knowing you called Knowing you held her Knowing you kissed Knowing you did all this

It's like I hardly see the sky some days It's like you hardly said a word It's like I hardly see the sky some days And I'd do better if I turned my head Knowing you did
