If You could send a burning bush to Moses Lead Your people home through a parted sea Give a boy the strength to defeat Goliath I know You will always take care of me

With You on my side, I am victorious With You on my side, I've got nothing to fear So I can walk through this valley with confidence Knowing You will deliver me

If You could raise the dead bones of Lazarus
If You could feed fivethousand with a couple fish and a loaf of bread
And in the middle of a stormy night You can walk on water
I know, I know, I know nothing's out of Your hands

If You could pull me out of my sin And give me new life within And keep all Your promises And Your Word is true then I don't have to be afraid I know this is the day You made So no matter what comes my way

[Chorus]
