

## Farewell

### Mandragora Scream

Lucifer & Him

Him: "Lucifer race whispers in silence  
Condemned to stand on the gallows of violence"

Lucifer: "The heroes die with a smile upon their face  
and why'd you call my golden rays Horns"

Bless the night hear my cryin'  
all the days in your life  
Lust of mind Heavens dying  
Son of my dark dawn  
Where's my life? Here in my arms  
Where's my blame? Here in my soul  
Help me to hate you while I'm goin' away from you...

Him: "Lucifer race whispers in silence  
Condemned to fight and leave the world insane"

Lucifer: "I'll be the one that carries faith in life  
and lead in the dark of our upcoming lives"

Blasted mind sinful lies  
Can becloud our life light,  
Lord of disgrace  
sacrificed and  
Melodies delight  
Where's my life? Here in my arms  
Where's my blame? Here in my soul  
Help me to hate you while I'm goin' away from you
