

# Through the Eyes of the Killer - Revival of the Muse That is Violence

Manticora

Grotesquely intense  
To kill without conscience  
So intense - It doesn't make any sense

So out of this world  
To butcher you without conscience  
So intense - To see that your life ends

Now watch me take an eye for an eye  
Tell the world you knew, goodbye

Nightmares falling apart  
Nightmares obliterating  
Nightmares vanishing  
To kill you is my muse

It solidifies in my brain  
Grabbing a hold of me  
So intense - Awakening my urge to kill  
To tower over you!  
Isn't this the ultimate kind of domination?  
So intense - To accept insanity

I'll beat your head to a pulp  
That's vendetta for you  
Tearing you apart - piece by piece - chasing the nightmares away  
y  
To crush your bones to dust  
Is my way of self-redemption  
I kill to live to kill - to chase my nightmares away
