

# Come On Baby

Mapei

Baby I'm riding down the freeway  
Pass me money to spend,  
Where'd you wanna go with me?  
Take this, dumb off all from your bag now  
Just come put it on me, it only gets better  
We're out this mother

Come on, baby  
Nothing is at all as our only hope  
You should be my man, baby!  
(2x)

Come on, baby!  
Come on, baby!

I could be the one to protect you,  
Nothing bad will affect you  
In your eyes all I see is me, yeah  
That's right, the roles are reversed now,  
It seems like you're really feeling me  
Am I worth the up-pursue  
So tell me now

Come on, baby  
Nothing is at all as our only hope  
You should be my man, baby!  
(2x)

Come on, baby!  
Come on, baby!

Most dudes out there aren't quiet like you  
I've got a pocket full of love, and a couple of suits  
Can we take a long ride until the sun is due?  
I'll put my Mag down, how about me and you  
Gang, ain't no feeling better than I'd have you by my side  
Ask me to whatever, and I'll tell you it's alright  
You should be my man, I should be your bride  
Not just for the night, but for the rest of our lives  
Come on!

You should be my man, not only my friend  
Try to understand, I need you  
Oh, yes I do!

Come on, baby  
Nothing is at all as our only hope  
You should be my man, baby!  
(2x)

Come on, baby!  
Come on, baby!
