

You was really bad in the summer
Winter came and we still with each other
Two peas in pod whats for supper
Disappear from the stress under covers
Suffocation without you, yeah I suffer
I'm a real fool for you, yeah a sucker

How we vibe, how we vibe, how we vibe
Can we stay up here for life
Our love so good, it just ain't right

I would never lie
Let me move inside
You can be the pilot
Love me long time
If reasons don't rhyme
You can live your life then
Listening to nevermind
Sippin' on some wine
You gon' get some mileage
Cause baby we gon' fly
Every freaking night
Are you giving me the diamond?
Are you giving me the diamond?

Yo, you never had this right
Here shaking like leave when I am near
Didn't mean to give you my tears
Didn't mean to install my fears
Once we let go we fly like fairies
Make a wish wake up and we married

How we vibe, how we vibe, how we vibe
Can we stay up here for life
Our love so good, it just ain't right
How we vibe, how we vibe, how we vibe
Put your problems to the side
Our love so good, it just ain't right

I would never lie
Let me move inside
You can be the pilot
Love me long time
If reasons don't rhyme
You can live your life then
Listening to nevermind
Sippin' on some wine
You gon' get some mileage
Cause baby we gon' fly
Every freaking night
Are you giving me the diamond?
Are you giving me the diamond?
