

From Nana

Oh
Was born in the rain
Was fluttering in the sun
Hmm

I was born in the rain
Now I laugh at the pain
I was raised in the dust
My life has begun

Tell the M.D. I don't need help
Got the remedy, I don't need help (All my days gone)
I seal 'em with a kiss (All my days)
I seal 'em with a kiss

I was born in the rain
And I can't stand the pain
All I have is the dust
This is all I've become

Tell the M.D. I don't need help
Got the remedy, I don't need help (All my days gone)
I seal 'em with a kiss (All my days)
I seal 'em with a kiss

I was sick, I was sane
I had luck in the game
I make love in the sun
My whole life has been fun

Tell the M.D. I don't need help
Got the remedy, I don't need help (All my days gone)
I seal 'em with a kiss (All my days)
I seal 'em with a kiss
Tell the M.D. I don't need help
Got the remedy, I don't need help (All my days gone)
I seal 'em with a kiss (All my days)
I seal 'em with a kiss
Tell the M.D. I don't need help
Got the remedy, I don't need help (All my days gone)
I seal 'em with a kiss (All my days)
I seal 'em with a kiss
