

# Orphan

Mapei

It goes music  
It goes music  
Love, melancholy shrugs  
Reflection of the red sky, I show no love  
No mercy to them weirdos, my soul's dispersed  
Humbling the past, future's black, the sun is cursed, it's like  
I got the earth in my palms, I'm mad calm, on some next shit, [?]  
It's lifelong however, take your time out, that shit is real  
But the sky's infrared yo with beams to kill

If I shall die, I would say no one is to blame, for my lonely heart  
Cause this city's dead, off with his head, they put us all to shame  
Problems still unsolved

You better choose your life, you're losing life, you're losing life  
Real recognise real  
Emotionally paralysed, you're paralysed, you're paralysed  
That's the way that I feel

I'm packing my bags, I'm gone for the winter  
Oh my, oh my, oh my, what a hell of a year  
I'm packing my bags, I'm gone for the winter  
Come roll with me, it's time to get up out of here

Fly side by side in the desert breeze  
I will never change  
How you like me raw?  
Strong will cry for the weak man's pain  
And the earth will do the same  
Cause it's nature's law

It ain't like I choose to cry  
I'm born to fly, I'll lose my mind  
That's the way that I feel  
And I won't apologize, apologize, apologize  
Real recognize real

I'm packing my bags, I'm gone for the winter  
Oh my, oh my, oh my, what a hell of a year  
I'm packing my bags, I'm gone for the winter  
Come roll with me, it's time to get up out of here

[?]  
We be want me piece of mind  
But the man want stress  
Me cold as ice  
Cold as ice, ice, ice, ice

Don't you leave me there or here  
Don't you leave me  
Don't you leave me there or here  
Don't you leave me
