

## Sooner Or Later

Mapei

What's the meaning of it all again?  
Emptied my glass, can you come again?  
Strangers say hi from a new place  
I'm just turning round from a dead end  
Wave hi from a lover's land  
Talking to my sorrow, they're my friends  
Day to day in foreign lands  
Monday all week here we go again

Curse this, no, can't leave  
Curse this, no, can't leave without you  
Curse this, no, can't leave, no  
Curse this, no, can't leave (Fuck)

What's the meaning of it all again?  
Tasted the win from a new bend  
Curse this, no, can't leave  
Our days turn to years, think I've found a friend

Cause sooner or later  
You're gonna need somebody  
You got your guards up high  
Why you wanna be so lonely?  
Cause sooner or later  
You're gonna need somebody  
You got your guards up high  
Why you wanna be so lonely?

Curse this, no, can't leave  
Curse this, no, can't leave without you  
Curse this, no, can't leave, no  
Curse this, no, can't leave

Cause sooner or later  
You're gonna need somebody  
You got your guards up high  
Why you wanna be so lonely?  
Cause sooner or later  
You're gonna need somebody  
You got your guards up high  
Why you wanna be so lonely?
