Mapei

Oh my god

Give me luck, I don't wanna live without you  
Toast to the most, say a prayer for my mama  
Holes in my clothes, now I'm rocking designer  
Get the world at my feet, salt my desires  
Give me luck, I don't wanna live without you  
Toast to the most, say a prayer for my mama  
Holes in my clothes, now I'm fucking up designer  
Got the world at my desire

I ain't never but the style of the mannequin  
(Bid my ma a crib?), I'm a African  
Been making moves, you're the advocate  
And now you wanna make me give you half of it

I feel like I'm in a movie, couldn't picture this  
Doing my ting ting, romantic  
I ain't never scared if you have a fit  
Oh my god

Give me luck, I don't wanna live without you  
Toast to the most, say a prayer for my mama  
Holes in my clothes, now I'm rocking designer  
Get the world at my feet, salt my desires  
Give me luck, I don't wanna live without you  
Toast to the most, say a prayer for my mama  
Holes in my clothes, now I'm fucking up designer  
Got the world at my desire

Salute if you're cuter than cute

Get loose with the goose, I was down and out  
Man, now I'm kissed by the sun on the finest island  
My skin is shining like a thousand diamonds  
Don't ask me for shh, silence, silence

I feel like I'm in a movie, couldn't picture this  
Doing my ting ting, you get it  
Try to catch up to my wave, can you surf to this?  
Oh my god

Give me luck, I don't wanna live without you  
Toast to the most, say a prayer for my mama  
Holes in my clothes, now I'm rocking designer  
Get the world at my feet, salt my desires  
Give me luck, I don't wanna live without you  
Toast to the most, say a prayer for my mama  
Holes in my clothes, now I'm fucking up designer  
Got the world at my desire

You already know it, you're real bad  
If it's more than I need, then you're real bad  
You already know where you rep, yeah  
You know what you rep, yeah  
You already know it, you're real bad  
If it's more than I need, then you're real bad

I just wanna be where you are  
Salute if you're cuter than cute

Give me luck, I don't wanna live without you  
Toast to the most, say a prayer for my mama  
Holes in my clothes, now I'm rocking designer  
Get the world at my feet, salt my desires  
Give me luck, I don't wanna live without you  
Toast to the most, say a prayer for my mama  
Holes in my clothes, now I'm fucking up designer  
Got the world at my desire

Hey, I'm feeling great  
This drink tastes like grape  
Don't get it in your face  
You'll make it go to waste
