

# Vision

Marc Almond

=====  
Marc Almond - Vision  
=====

(Peter Hamill)  
I have a vision of you  
Locked inside my head  
It creeps upon my mind  
And warms me in my bed  
A vision shimmering, shifting  
Moving in false firelight  
A vision of a vision  
Protecting me from fear at night  
As the seasons rolled on  
And my love stayed strong

I dont know where you end  
And where it is that I begin  
I simply open my mind  
And the memories flood on in  
I remember waking up  
With your arms around me  
I remember losing myself  
And finding that you'd found me  
And the seasons rolled on  
And my love stayed strong

Be my child, be my lover  
Swallow me up in your fire glow  
Take my tongue, Take my torment  
Take my hand and don't let go

Chorus

Let me live in your life  
For you make it all seem to matter  
Let me die in your arms  
So the vision will never shatter

And the seasons rolled on  
And my love stayed strong  
The seasons rolled on  
My love stayed strong

My love stayed strong  
And my love stayed strong

Repeat chorus
