

Please Please Please

Marc Broussard

I, I believe in peace and love and faith and honesty
That you can hold, you can dream
Don't get down when you're swimming up a stream
But the road can be long
When you need me most, know that I'll be strong

Please, please, please remember
To dream dreams bigger than you are
When you leave we'll still be together
I will always keep you in my heart

In time you will fly
Still my love for you will never die
When all, all I know
That it's never easy when you're letting go

The road can be long
When you need me most, know that I'll be strong

Please, please, please remember
To dream dreams bigger than you are
When you leave we'll still be together
I will always keep you in my heart

I, I believe
In peace and love, faith and honesty

Please, please, please remember
To dream dreams bigger than you are
When you leave we'll still be together
I will always keep you in my heart

Please, please, please remember
I will always keep you in my heart
