

Let Me Rock

Marc E. Bassy

Boy, don't take that love for granted
Get a text from every drug
Even if they don't understand it, nah
That ain't no excuse to stop

I can be bad all by myself
If I want to live forever, I don't need no one's help
I can be bad all by myself
If I want to live forever, I don't need no one's help

Let me rock
We got Xans, got percs, got rocks
Let me rock
Don't leave my best friend snoring on the couch
Let me rock
Don't let me feel like I've been going crazy
When you know that, that's just the way you made me

Mama knows I didn't plan this, yeah
I was guilty from the start
And you may not understand this
'Cause she's such a work of art

I can be bad all by myself
If I want to live forever, I don't need no one's help
(I don't need nobody)
I can be bad all by myself
If I want to live forever, I don't need no one's help

Let me rock
We got Xans, got percs, got rocks
Let me rock
Don't leave my best friend snoring on the couch
Let me rock
Don't let me feel like I've been going crazy
When you know that that's just the way you made me

Ooh, I'm feeling new
What you wanna do?

Let me rock
We got Xans, got percs, got rocks
Let me rock
Don't leave my best friend snoring on the couch
Let me rock
Don't let me feel like I've been going crazy
When you know that that's just the way you made me
When you know that that's just the way you made me
