

Save Me

Marc E. Bassy

I'm staring at you
I'm staring at you yeah
I'm staring at you
I'm staring at you

Don't speak, just listen baby
You know you drive me crazy
Know there is something on my mind
I need you to save me
Listen baby you know you drive me crazy
And I'm about to lose my mind
I need you to save me
Save me right now
Save me
Save me right now
Save me
Save me right now
Save me
Save me right now

Save me save me
Save me save me girl
Where you went
You were my whole world
Now I'm bent cup the color pearl
And your silhouette embedded in my whole aesthetic
Vintage two seater
Fendi wife beater
Balenci
Praise Jesus
Pull over the whip blow reefer
Baby keep me up no key bump
Got a lot of ho's don't need 'em
Baby give me back my reason
Baby give me back my reason
And maybe over time we can learn to make it
Been a lifetime and it's never faded
Everything in love come down to patience
How long we've been waiting for it (ooohhh ooohhh)

Don't speak, just listen baby
You know you drive me crazy
Know there is something on my mind
I need you to save me
Listen baby, you know you drive me crazy
And I'm about to lose my mind
I need you to save me
Save me right now
Save me
Save me right now
Save me
Save me right now
Save me
Save me right now

I'm staring at you
I'm staring at you yeah yeah

I'm staring at you
I'm staring at you
