

Where We're From

Marc E. Bassy

(Don't say that you want my luck)

Don't say that you want my luck
Don't say that you want my luck
Don't say that you don't my love
Don't say you not feeling everything I'm feeling
Tell me you remember where we from
Don't say that you want my luck (my luck)
Don't say that you don't my love (my love)
Don't say you not feeling everything I'm feeling

Tell me how much ever is enough
Set me down says enough
Don't say you forget when we was young
Don't say you not missing all the things I was giving
Maybe we will, maybe we won't
Maybe if you checking on me something off something wrong ya lonely
Maybe we will, maybe we won't
But I know I still would if, if it's the deal

Don't say that you want my luck
Don't say that you want my luck
Don't say that you don't my love
Don't say you not feeling everything I'm feeling
Tell me you remember where we from
Don't say that you want my luck (my luck)
Don't say that you don't my love (my love)
Don't say you not feeling everything I'm feeling

Last night hit me saying let's get up
Girl you poppin now like you a clutch
When I had the Honda let me hit it in the cut
You believed in me and all my dreams
That's why I'm still trying to get oh oh baby
Struck you down I slowly make you ah oh crazy
Baby thinking bout man where this 'gone go lately
Sprinting if you feel we in a rush

Don't say that you want my luck
Don't say that you want my luck
Don't say that you don't my love
Don't say you not feeling everything I'm feeling
Tell me you remember where we from
Don't say that you want my luck (my luck)
Don't say that you don't my love (my love)
Don't say you not feeling everything I'm feeling

Don't say that you want my luck
Don't say you not feeling everything I'm feeling
Don't say that you don't my love
Don't say you not feeling everything I'm feeling
Tell me you remember where we from
Don't say that you want my luck
Don't say that you don't my love
Don't say you not feeling everything I'm feeling
Tell me you remember where we from
Tell me you remember where we from

Tell me you remember where we
Where we from
Tell me you remember where we from
