

# Go Where You Go

Marcus & Martinus

Have you got somewhere to be  
Or you wanna take a walk with me  
Do you think that we could be  
Something together  
Have you got somewhere to go  
Baby you and I  
Can lose control  
Do you think that  
What we have  
Could last forever

You got your  
White striped sneakers on  
Let's go somewhere only we know

I think I wanna  
Go where you go  
You and me together  
It's right  
We know  
And we can't stop it  
I think I wanna  
Go where you go  
I think I wanna  
Go where you go

Do you remember  
When you and I  
Were only friends  
I was just a kid and  
Even then I knew  
I loved ya

And when I leave again  
I know you'll be there in the end  
And you know I know  
I'm lucky that I found you

I miss those  
White striped sneakers girl  
Running through  
The fields of September

I think I wanna  
Go where you go  
You and me together it's right  
We know, and we can't stop it  
I think I wanna  
Go where you go  
I think I wanna  
Go where you go  
I think I wanna  
Go where you go
