

## Star Baby

Marcy Playground

Say what you will  
You're my star baby

When you coming down  
When you coming down  
Come on down  
When you coming down  
When you coming down  
Come on down

Star gazer...  
Dream maker, I'm in love with you  
I spin the bottle...  
And every time it's landing right on you

So say what you will,  
Inside baby

When you coming down  
When you coming down  
Come on down  
When you coming down  
When you coming down  
Come on down

I've been waiting...  
Waiting patiently every night  
Just to see you...  
Just to see your perfect shining light

My heart is like a photograph, [album]  
Of all the good times and bad, [and I've had some]  
Where I miss this girl, and I miss that girl  
I don't miss THAT girl... but sometimes I miss this girl  
But you, you're my star baby  
You're my star baby

And when you coming down  
When you coming down  
Come on down  
When you coming down  
When you coming down  
Come on down  
Aw, when you coming down  
When you coming down  
Come on down
