

At the Carnival

Margot & the Nuclear So and So's

Carnival, we'll have a great time
We'll fly the ferris wheel to the moon
at the carnival
carnival, I'll be your scarecrow
we'll drive your father's car down the road
at the carnival

carnival

carnival, you're on my last nerve
I'll be a humming bird, you shall see
at the carnival
cigarette, we'll have a quick drag
I'll boot your bony ass to the moon
at the carnival

carnival
(I need some old times
a place to lay low
and to waste my time
on a mime)

Let's bust out our new piano
play a tune in the corner of your spine
chase the moths away
chase the blues away
and take me to the carnival

superfriend,
I'd like to hear you
it'd make me happier
than a child
at the carnival

carnival
